

Goulburn River at Murchison Gauge Level - 11.29 m - 1974 Event

Whilst the flood mapping extends beyond the Study Area in rare and extreme events due to the broad area of floodplain inundated use of the mapping outside in these areas should be treated with caution as detailed representation of the floodplain features are not included in the model.

Title: Murchison Flood Study - Murchison and East Murchison Peak Flood Depth and Level - 1974 Event

Figure: 1
Rev: A

This mapping product is based on techniques and data in accordance with the study scope. Users should consider the mapping in the context of the report. No two floods are the same and care should be taken in the use and interpretation of the results presented.
