PURPOSE

The intent of this *Procurement Policy* (“the Policy”) is to achieve best value outcomes and ensure high standards of probity and accountability in the procurement of goods, services and works for:

- a) the Greater Shepparton City Council (“Council”); and
- b) the Goulburn Valley Regional Collaborative Alliance (“GVRCA”) of which Council, Strathbogie Shire Council (“Strathbogie”) and the Moira Shire Council (“Moira”) are members.

Accordingly, the Policy provides for procurement processes where:

- i. Council invites tenders for goods, services or works where Council will be the principal to the contract; and
- ii. Council invites tenders as an agent for Strathbogie and Moira with the intention that each council subsequently enters into a contract.

OBJECTIVE

The objective of this Policy is to ensure that Council’s procurement principles, policies, and procedures achieve the following objectives:

- a) best value, innovation and continuous improvement in the provision of services for the community;
- b) a strategic approach to procurement planning, implementation and evaluation;
- c) enabling sustainable outcomes including economic, environmental and social sustainability;
- d) efficient and effective use of Council resources;
- e) utilising collaboration and partnership opportunities;
- f) high standards of probity, transparency, accountability and risk management; and
- g) compliance with legislation, the *Council Plan 2017-2021* objectives, Council policies and industry standards.

SCOPE

Section 186A of the *Local Government Act 1989* (“the Act”) requires councils to prepare, approve and comply with a procurement policy which must be applied to all purchases of goods, services and works.

This Policy must be considered in all aspects of the procurement of goods, services and works.

The scope of this Policy commences from when there is an identified need for procurement requirements and continues through to the delivery of goods or completion

of works and services. The Policy applies to Council, Councillors, Council staff and all persons undertaking procurement on Council's behalf and they are accountable for complying with all relevant procurement legislative and policy requirements.

DEFINITIONS

Reference term	Definition
Accountability and Transparency	Accountability in procurement means being able to explain and evidence what decisions have been made and what has happened. The test of accountability is that an independent third party must be able to see clearly that a process has been followed and that the process is fair and reasonable.
Best value	Best value in procurement is about selecting the supply of goods, services and works taking into account both cost and non-cost factors including: <ol style="list-style-type: none"> 1. contribution to the advancement of the Council's priorities; 2. non-cost factors such as fitness for purpose, quality, service and support; and 3. cost-related factors including, where appropriate, whole-of-life costs and transaction costs associated with acquiring, using, holding, maintaining and disposing of the goods, services or works.
Commercial in confidence	Information that, if released, may prejudice the business dealings of a party eg: prices, discounts, rebates, profits, methodologies and process information.
Contract management	The process that ensures both parties to a contract that fully meet their respective obligations as efficiently and effectively as possible, in order to deliver the business and operational objectives required from the contract and in particular, to provide best value.
Council staff	Includes full-time, part-time and temporary Council staff, contractors and consultants engaged by the Council.
Expression of Interest (EOI)	An invitation for persons to submit an EOI for the provision of the goods and/or services generally set out in the overview of requirements contained in the document. This invitation is not an offer or a contract.
Panel contract	A panel contract is a standing offer agreement where multiple contractors are appointed to a panel of suppliers, rather than an agreement with just one contractor.
Probity	Within local government, the word "probity" is often used in a general sense to mean "good process." A procurement process that conforms to the expected standards of probity is one in which clear procedures that are consistent with legislation, the Council's policies and procedures are established, understood and followed from the outset. These procedures need to consider the legitimate interests of suppliers and ensure

	that all potential suppliers are treated equitably.
Probity Advisor	Commonly an observer in dealings with tenderers and the evaluation panel at presentations and interviews. The probity advisors would be available to answer questions and provide advice to the evaluation team.
Probity Auditor	Primarily reviews all processes and documentation throughout the procurement process and provides a report on their findings at the conclusion of the process.
Probity Plan	A document developed to ensure the key aspects of Probity in relation to the relevant procurement process are captured for evidentiary purposes.
Procurement	Procurement is the whole process of acquisition of external goods, services and works. This process spans the whole life cycle from initial concept through to the end of the useful life of an asset (including disposal) or the end of a service contract.
e-Procurement	e-Procurement is integral to the overall development of procurement processes and involves the use of an electronic system/s to acquire and pay for goods, services & works.
Social procurement	Social procurement uses procurement processes and purchasing power to generate positive social outcomes in addition to the delivery of efficient goods, services and works.
Standing offer agreement	The contractor agrees to provide Council with specific goods or services as nominated in the contract and the contract is for a fixed period. There is no obligation on Council to purchase any goods or services, however if purchases are made under the contract, they are made under the terms and conditions which form part of the contract.
Sustainability	Activities that meet the needs of the present without compromising the ability of future generations to meet their needs.
Tender process	The process of inviting parties to submit a quotation by tender using public advertisement, followed by evaluation of submissions and selection of a successful bidder or tenderer.
